

Potter Halo

Potter Halo, Medium and Small – Porcelain

Flex Option – Natural Grey Linen

White Ceiling Canopy, Flex Option – Mid Grey Linen

Handmade to the same size and shape specifications as the other fittings in the Potter Light family, the Potter Halo is thrown on a potter's wheel using a specially formulated, high-grade porcelain. Sourced from a producer in Australia, the porcelain used to make the Potter Halo is internationally regarded as one of the finest in the world. Its highly refined nature produces a semi-translucent surface that glows softly when illuminated from within.

The Potter Halo is left unglazed to encourage the luminosity of the clay body and to celebrate the visual softness of the porcelain surface. A linen covered flex completes the lighting fitting and is available in natural grey, pale grey or dark grey options.

Potter Halo
